📄 CERTIFICATES

Full Stack Web Development 🔗
Masai School

Digital Marketing Course 🔗
Udemy
This digital marketing certificate validates expertise in online strategies for business growth, including SEO, social media marketing, content strategy, and analytics.

📇 PROFESSIONAL SUMMARY

Software developer with a passion for space exploration, driven by a love for solving complex problems and taking on new challenges. Skilled at adapting to unfamiliar areas, quickly learning, and improving through hands-on experience. Focused on delivering reliable solutions, optimizing processes, and growing technical knowledge. Committed to continuous learning and building high-quality, efficient software while exploring new frontiers in development.

🛍 WORK EXPERIENCE

Polar AI
Full Stack Web Developer
September 2024–present
Job responsibilities:

- At Polar AI, worked on optimizing AI-driven chatbots for web and email platforms. Used technologies like Node.js, Express, LangChain, Pinecone, and OpenAI embeddings. Played a key role in transitioning the product to a SaaS model and training new team members.

- Converted a custom product to a SaaS model, enabling clients to start using the service and contact the team for customizations.

- Built web chat, email chatbots, and AI agent automation from scratch as part of the SaaS offering.

Cointab
Software Development Engineer
March 2024 - June 2024
Job responsibilities:

- Managed feature development and bug fixing, ensuring high code quality and product reliability.

- Collaborated closely with cross-functional teams to implement new features effectively.

- Conducted thorough manual testing to deliver stable products and ensure seamless user experiences.

- Resolved bugs efficiently, contributing to improved system performance and customer satisfaction.

Masai School, Bengaluru
Full-Stack Web Developer Intern
July 2022 - November 2023
Job responsibilities:

- Developed robust server-side logic using Node.js and Express.js, enhancing the efficiency of handling HTTP requests.

- Designed and implemented MongoDB schemas and data access services, facilitating CRUD operations for an E-commerce platform.

- Built RESTful APIs for seamless interaction with the data storage layer, ensuring integration with frontend components.

- Completed a 6-month intensive training at Masai School, building strong foundational skills in backend development.

🖥 PROJECTS

1. Email Styler Pro | ⊕
JavaScript | Node.js | Express.js | MySQL

- Designed and implemented the backend architecture using Node.js and Express.js, integrating AI technologies for email template generation.

- Developed and maintained RESTful APIs to support frontend components, ensuring seamless communication and data flow.

- Integrated a payment gateway to facilitate efficient transaction and subscription handling within the platform.

- Collaborated with frontend developers to ensure responsive email templates and seamless user experience.

- Optimized database queries in MySQL for better performance and reliability across the platform.
